Further in response to the second Office Action mailed December 23, 2003, and in addition to the changes requested in the AMENDMENT previously mailed to the USPTO on March 10, 2003, please further amend the above-captioned patent application as follows:

**In the Claims**

Please add new claims 21-40 as set forth hereafter:

21. A method of winterizing a landscape irrigation sprinkler system, comprising the  
2 steps of:

4 pressurizing at least one supply line connected to a plurality of sprinklers with a  
compressible fluid to remove the water therefrom to thereby avoid breakages that would otherwise  
result from freezing and expansion of the water in the Winter;
